- Slogan: "Powered by innovation"

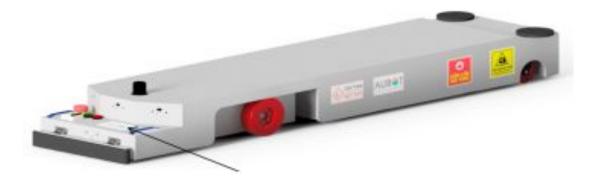

• Aubot Company, established in 2019 in Hanoi. Currently, there are about 50 employees directly designing, programming, and manufacturing equipment, solutions, and platforms for internal logistics for factories and warehouses. The main competency is the ability to "in house Engineering, Tailor Made" different technologies to create a total solution suitable to customer needs.

T500-2 – TUGGER AGV

With an optimum design, compact size, towing capacity of 500kg, it can operate in tight spaces, 24/7. The intelligent control system can be customized according to customer's requirements. Apart from that, T500-2 also has an outstanding safety mechanism for users and equipment.

- Materials...
- process...; Accessories: RFID, QR code,

INTRA LOGISTICS SOLUTIONS 1.

DESIGN & MANUFACTURING AGV

• Design and manufacture automation equipment, AGV, AMR, AGV forklift, automatic conveyor...[Including mechanical, electrical control, electrical]

• Connects devices to the control center; Communication between machine and Cargo,

• Infrastructure for equipment to operate: Charging station; WIFI; word line; production

Number of employees : 50

Apart from the intelligent control system, the design can be customized according to customer's requirements. AGV C450 also has an outstanding safety mechanism for users and equipment.

OUR ADVANTAGE

INTRA LOGISTICS SOLUTIONS

- Improve productivity:
- Reduce costs:
- Improve safety in production

- lots
- Magnetic Navigation Technology
- Monitor status, location, activity of AGV
- CNC

• IN-HOUSE ENGINEERING, TAILOR-MADE

• DESIGN ACCORDING TO CUSTOMER REQUIREMENTS

Which applications can we apply to?

INDUSTRIES

- Distribution Center
- Warehouse
- Manufacturing Facilities
- Automotive & Vehicle Fabrication
- Print & Paper
- Food & Beverage
- Chemical Processing
- Pharmaceutical
- Hospital
- ...

DUTIES

- Raw Material Delivery Such as Paper, Steel, Rubber, Platic...
- Moving Product to Support Assembly Process
- Pallet Handling
- Trailer Load and Unload
- Roll Handling
- Linking Manufacturing Cell

• …

2. COMPUTER VISION & AI, MONITORING

MQ ICT SOLUTIONS

- Slogan: "Powered by AI"
- Core Value : Al x loTs x Big Data

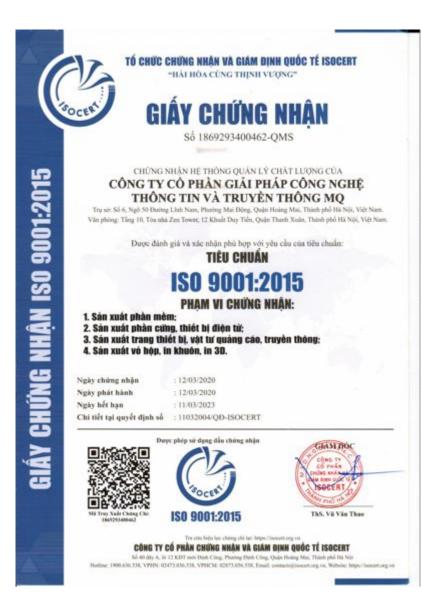

• Mission: "To monitor what matter, where matters in real time by AI"

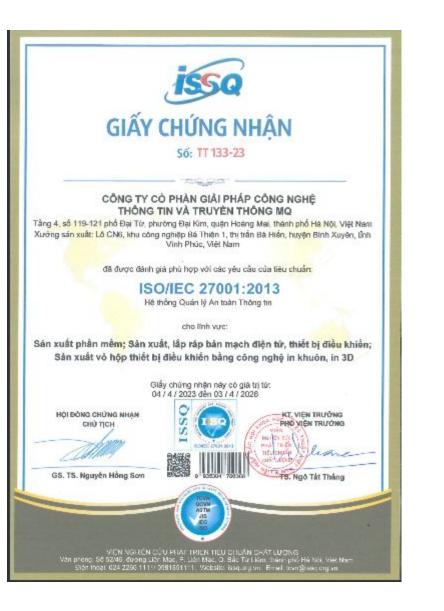

• Vision: "The leading AI monitoring solutions company in Vietnam"

- Providing IoTs x A.I x Big Data solutions for electricity, Petrolimex, PVN, banking, industry, healthcare, security, defense
- Solutions for Smart City, smart factory digital transformation 2.
- Research solutions using: Artificial Intelligence, IoTs, Robots... 3.
- Construction and deployment of camera systems, fire protection, scada control signals, operating centers, data centers; 4.
- Develop software as required 5.

equipment emergency backup.

3. Apogee Power Viet Nam

Main Products

Our products are applied to :

- Portable electrical equipment (electric drill, lawn mower...etc),
- UPS, UV
- BESS (High Performance Energy Storage System)
- Aerospace
- Use UPS in hospitals, military,

NO FIRE NO EXPLOSION

Product ranges from :

3.3 V 3.0 Ah LFP 3.3V 3.9Ah LFP 3.3 V 50Ah~280Ah

12V 5Ah~300Ah 24V 90Ah

48V E-bike Battery Roller UPS 33V

••

3. Apogee Power Viet Nam

- Adherence to the strictest U.S. MSHA and Military Standard explosion-proof design specifications.
- Passed the U.S. Department of Defense DCMA (Defense Contract Management Agency) Audit.
- **Explosion-proof safety certifications all completed.**
